Solve the Maze

Connect the Dots

Connect the dots in order from 1 to 30 to reveal an animal!

Make a fan

Cut out the next three pages and follow the below instructions to make your own paper fan!

1

(2) Glue (1) and (2) back to back.

Cut out the fan and hole.

Step 1: Gluing and cutting the fan template. The diagram shows a fan template with a light blue background and colorful polka dots. A grey strip is being glued to the back of the fan. Red arrows indicate the direction of the glue. The second part shows the fan being cut out, with scissors indicating the cutting path around the fan and the hole. The third part shows the finished fan with the hole cut out.

2

Cut out (3) and (4) including the hole then glue it on each side of the fan.

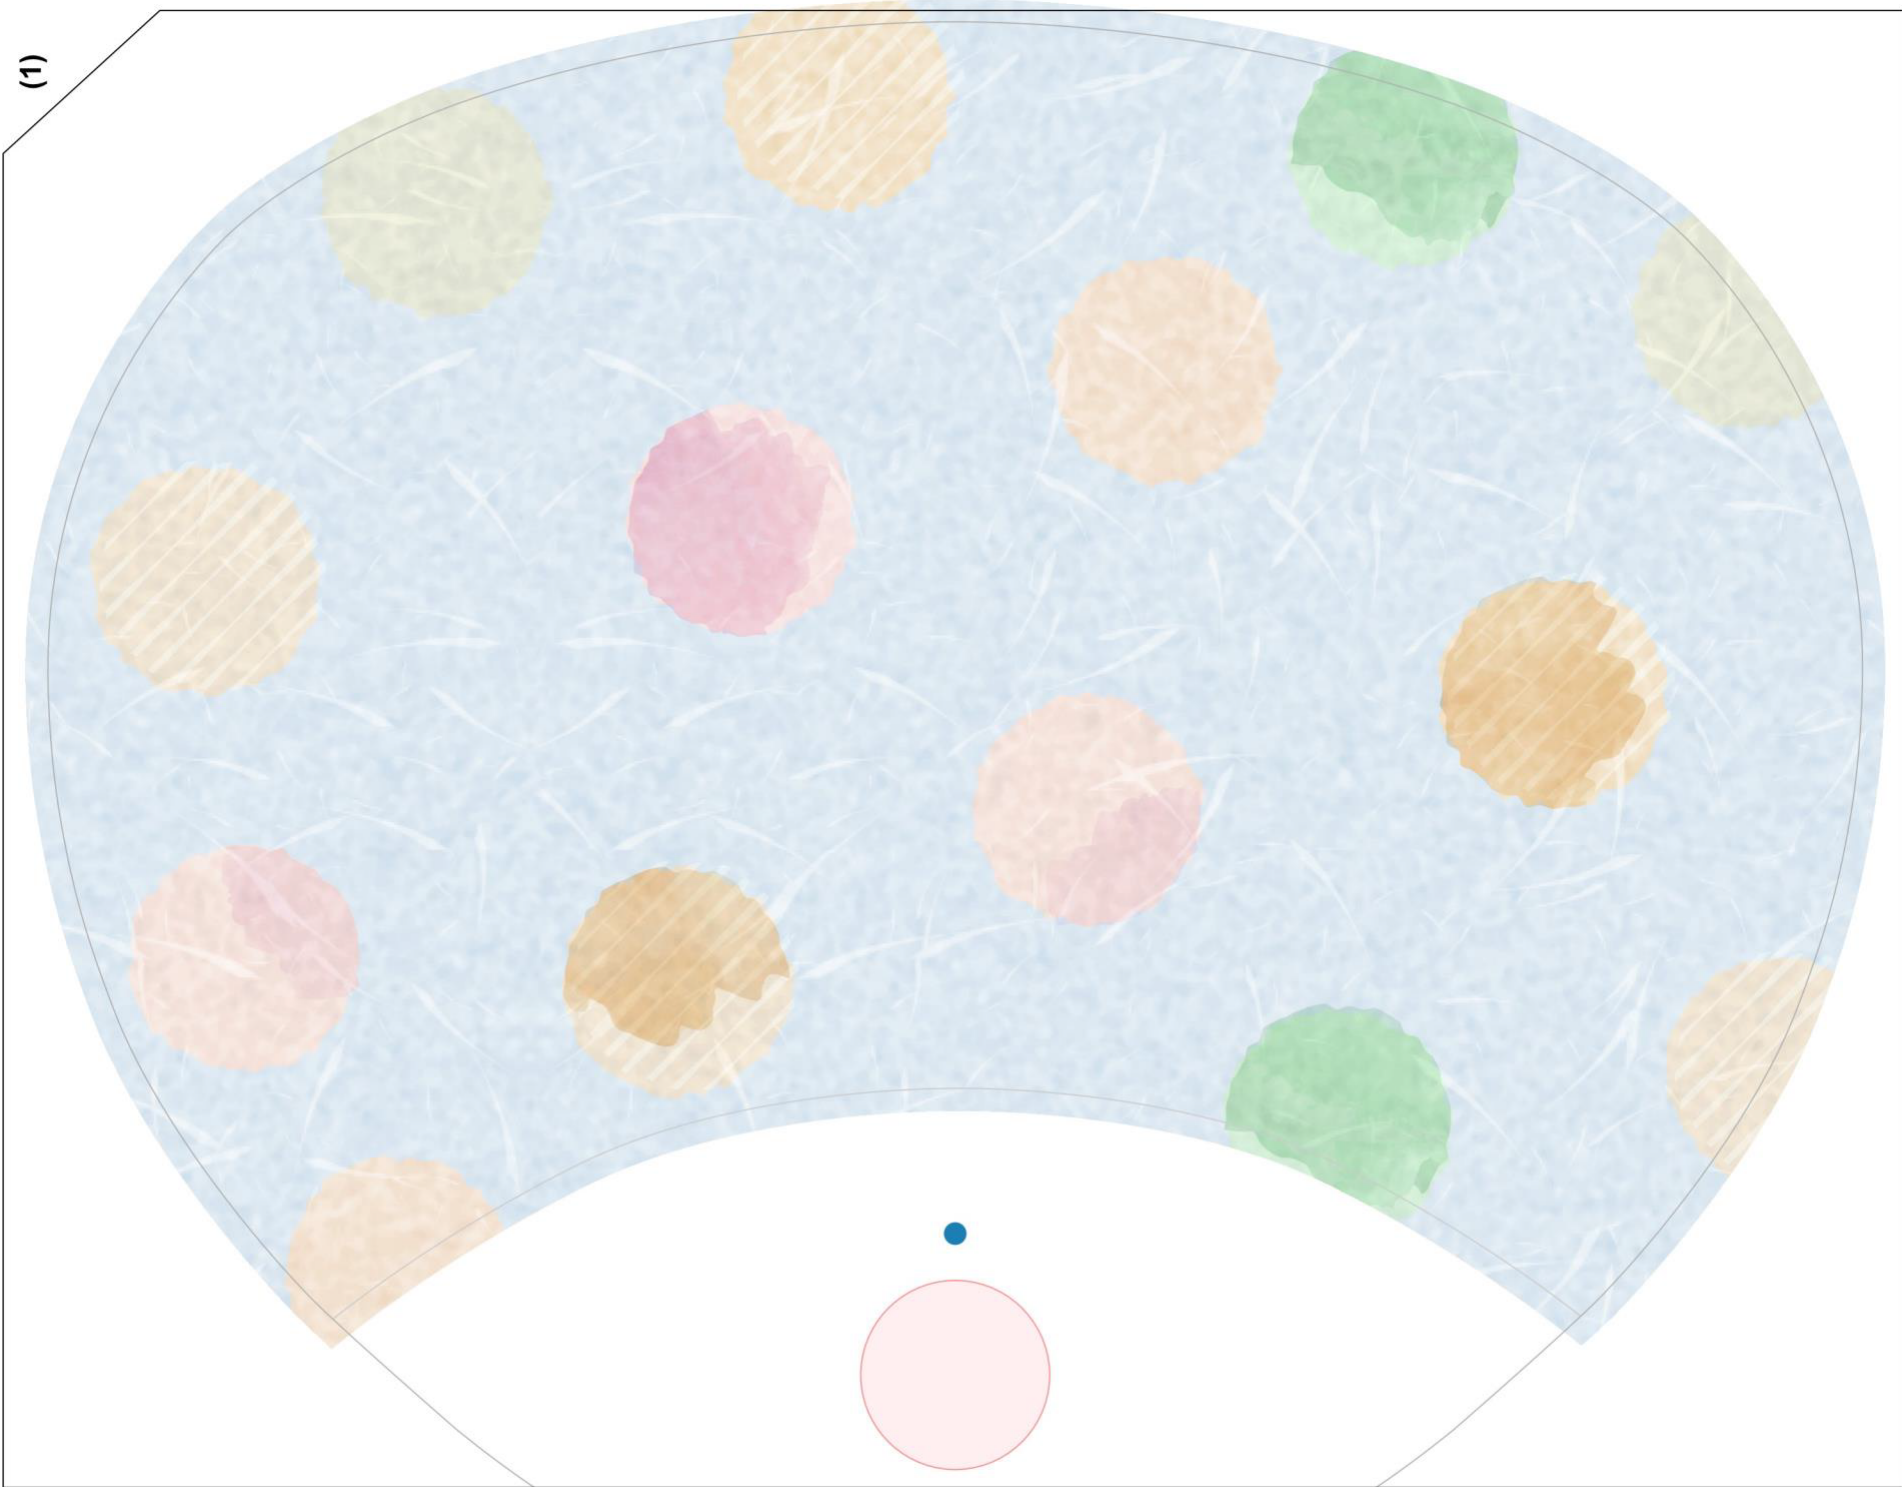

(3)

(4)

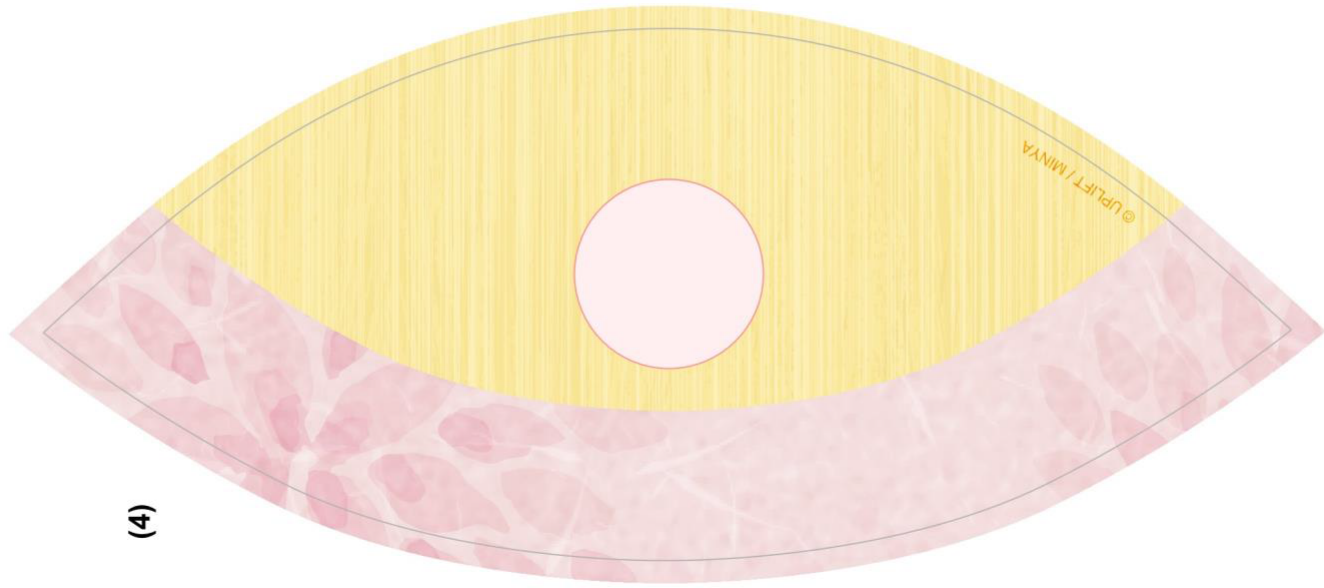

Complete!

Step 2: Gluing the fan to the base. The diagram shows the fan template being glued to the base. Red arrows indicate the direction of the glue. The second part shows the fan being glued to the base, with the hole cut out. The third part shows the finished fan with the hole cut out.
